

dis-Piano

2007-2011

This album is a document of my life 2007-2011.

Some fantastic and sorrow events let me make music.

Making music was so hard to me, but at the same time, it brought me lots of happiness.

I've got many musical findings through this works.

And I realized wonderful piano sound again. I would like to practice the piano more.

Please enjoy and play these pieces !
